

FIXED JACK COMPETITION

15th JUNE 2025 – 2.30pm Start

This is a fun competition open to all members regardless of ability

Rules

The jack is placed on a fixed point, long in one direction and short in the other direction.

Each player has four bowls.

The mat will always be placed two metres from the ditch.

After all the bowls have been delivered, the furthest two bowls from the jack are removed from play. Play then continues with your remaining bowls.

When a player has had all four bowls removed, they retire from the competition.

A final round will be played from the last two remaining players from each rink. (Four bowls each)

If the jack is moved by a bowl, the bowl remains in its final resting place and the jack is replaced on the fixed point.

Beware on the long jack – any bowl falling into the ditch, regardless of it being a 'toucher' or not will be removed from play.
